National Council for Geographic Education

Call for George J. Miller Award Nominees

The 1989 George J. Miller Award Committee invites you to assist in identifying worthy candidates for the Distinguished Service Award. This is the highest award given by the NCGE. Criteria are enumerated in this NCGE Board approved statement, "the emphasis needs to be on quality and character of contributions to geographic education, evidence of sustained effort on behalf of geographic education and, often, the nature and extent of service to the NCGE." Service to the NCGE is not the sole criterion for this award. For this award service must be defined broadly in order to encompass all conceivable ways of contributing to geographic education including: (a) research, (b) papers and publications, (c) teaching, (d) grants, (e) service as a role model, (f) lobbying on behalf of geographic education, (g) significant contributions in the training of teachers, (h) development of curriculum materials, (i) service, where appropriate, to the NCGE or other professional organizations, and (j) administrative activities that involve service to geographic education.

Please send your nomination with a half-page summary of the nominee's contributions to geographic education to Richard G. Boehm, Department of Geography and Planning, Southwest Texas State University, San Marcos TX 78666. The deadline is **January 15, 1989.**
